Dear Sirs: (have a contact name)

GOSPEL BROADCASTING NETWORK (GBN) broadcasts gospel preaching, teaching, Christian evidences, and beautiful *a cappella* singing, via satellite television (C-band & KU) (also, internet streaming at <http://gbntv.org>), 24 hours a day, seven days a week. A non-commercial network, free of sales, fund-raising telethons, or pleas for money, GBN is funded by free-will contributions of congregations and members of the church of Christ in the United States, including members in your area, who have an interest in receiving GBN via cable.

I will be happy to provide you with a brochure and DVD giving further information about the network, its programming, and mission. Please take time to consider and evaluate the benefit GBN can bring to your slate of networks. There are those in your coverage area who are eagerly awaiting the inclusion of **GBN** in their cable package, and others who are anticipating becoming subscribers, should the Gospel Broadcasting Network be available.

GBN is available to you through OlympuSAT to provide faith and family-based programming to you and your subscribers at no cost. We do not, nor ever intend to, charge for this service. To contact OlympuSAT, please call Eric Bressler at (516) 472-2867. If you would like to preview our programming and/or learn more about us you may visit the GBN website at <http://gbntv.org>.

For additional information, you may contact me at **(your info)** or you Leroy Dedmon @ 1-866-525-4677, Ext. 107, or by email at cableinfo@gbntv.org.

Sincere thanks,
(Your Name)
